

The Lost Sailor

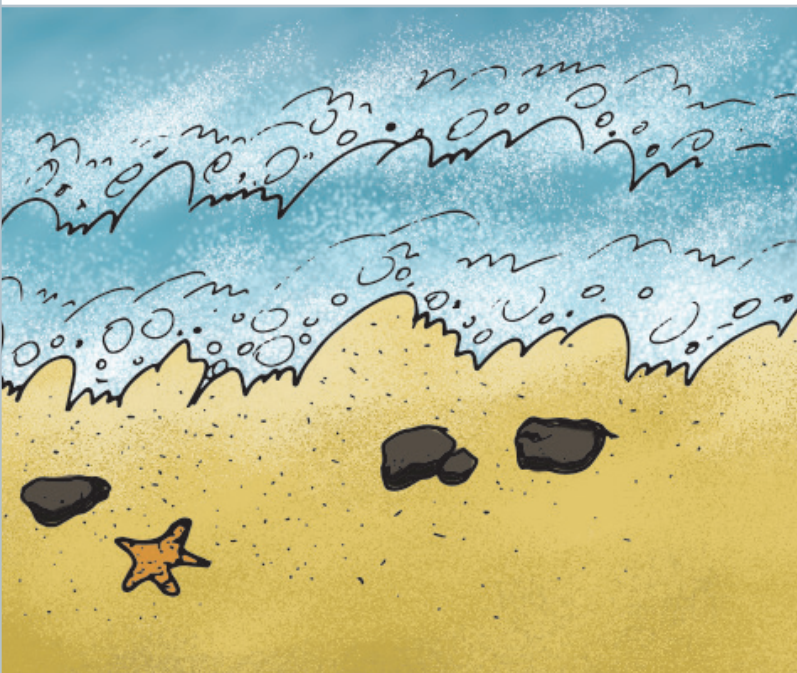

It was a tranquil dawn on a desert island in the heart of the pacific ocean...

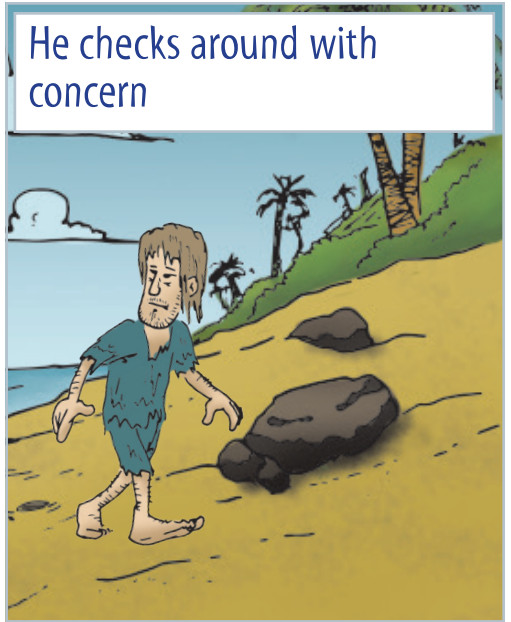

Everything appeared to be normal after a vicious storm hit the island last night!

A lost sailor washed to shore after it comes out that the storm sung down his ship.

Barely standing up on his feet, dusting off himself

He checks around with concern

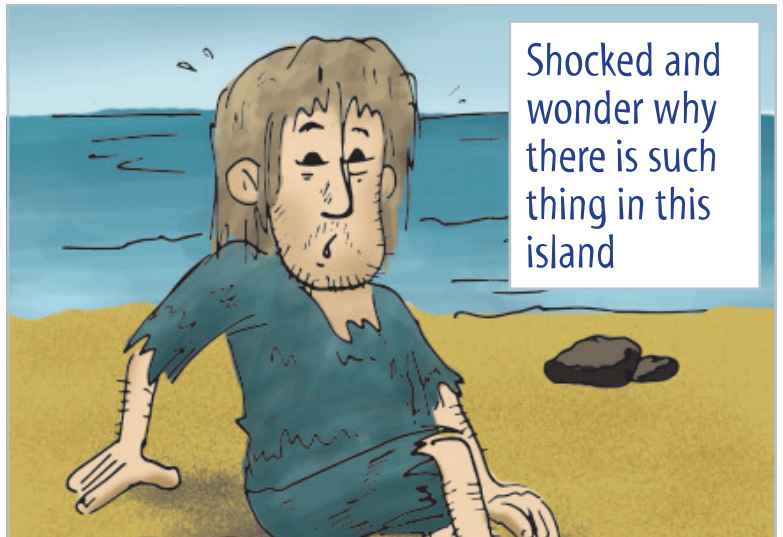

SNAP!!

Something broke down under his foot?

A terrifying sight of human skull!!

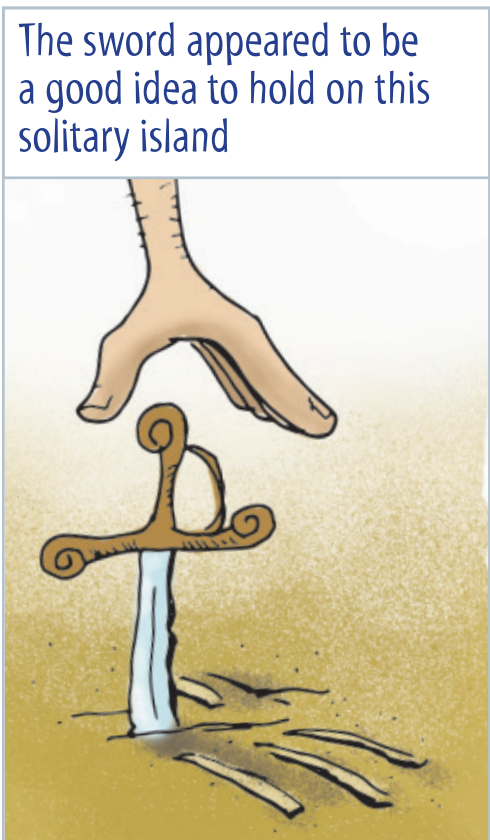

Shocked and wonder why there is such thing in this island

Slowly overcome his fear

And grabbed the hat of the dead man

Better to have a shade from the hot sun

The sword appeared to be a good idea to hold on this solitary island

Checking once more with confidence

And continue walking into the heart of the island

Deep in the jungle of the island

He heard someone talking ?!

Carefully walked toward the sound

What a surprise, two pirates on this island!

Thinking if they can save him from this island, but those pirates might be dangerous

Uh Oh!

Drop your sword

Well, well what do we have here?

I ... I'm a ... sailor and ... I lost my ship last night ... there was a storm

Tell me ... How sent you or I will kill you now

This is my island and no one can be here if I don't say-so

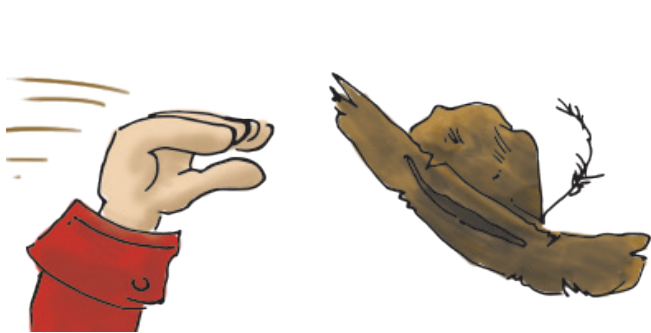

Give me that hat

This is a pirate hat... and you are no PIRATE!

Anyway, if you want to survive you must be part of my crew

I'm captain Bones...And my beautiful ship is the Red Ghost

Do I really have a choice...it looks that I will be a pirate for the rest of my life

As a beginning, you will serve, sweep, clean, scrub, carry stuff, mob floors... etc.

It's your choice, either you come with us or left on this island like the dead man with the hat!
